MPG SPACE & LOGISTICS

Industrial Space
Strategic Advantage

Spread Over **304,920 Sq. Ft.** | Built-up **125,000 Sq. Ft.**

MPG Space & Logistics

NH 71,
Delhi NCR

At **MPG Space & Logistics**, warehousing is viewed not merely as covered area, but as a critical business enabler. A well-planned warehouse improves movement, reduces operational friction, strengthens distribution reach, and creates a more reliable foundation for growth. This belief shapes the way the project has been designed — with attention to accessibility, loading efficiency, circulation, utility planning, safety systems, and everyday usability.

THE SPIRIT OF BOUNDLESS POSSIBILITY

We stand at the meeting point
of now and what comes next.

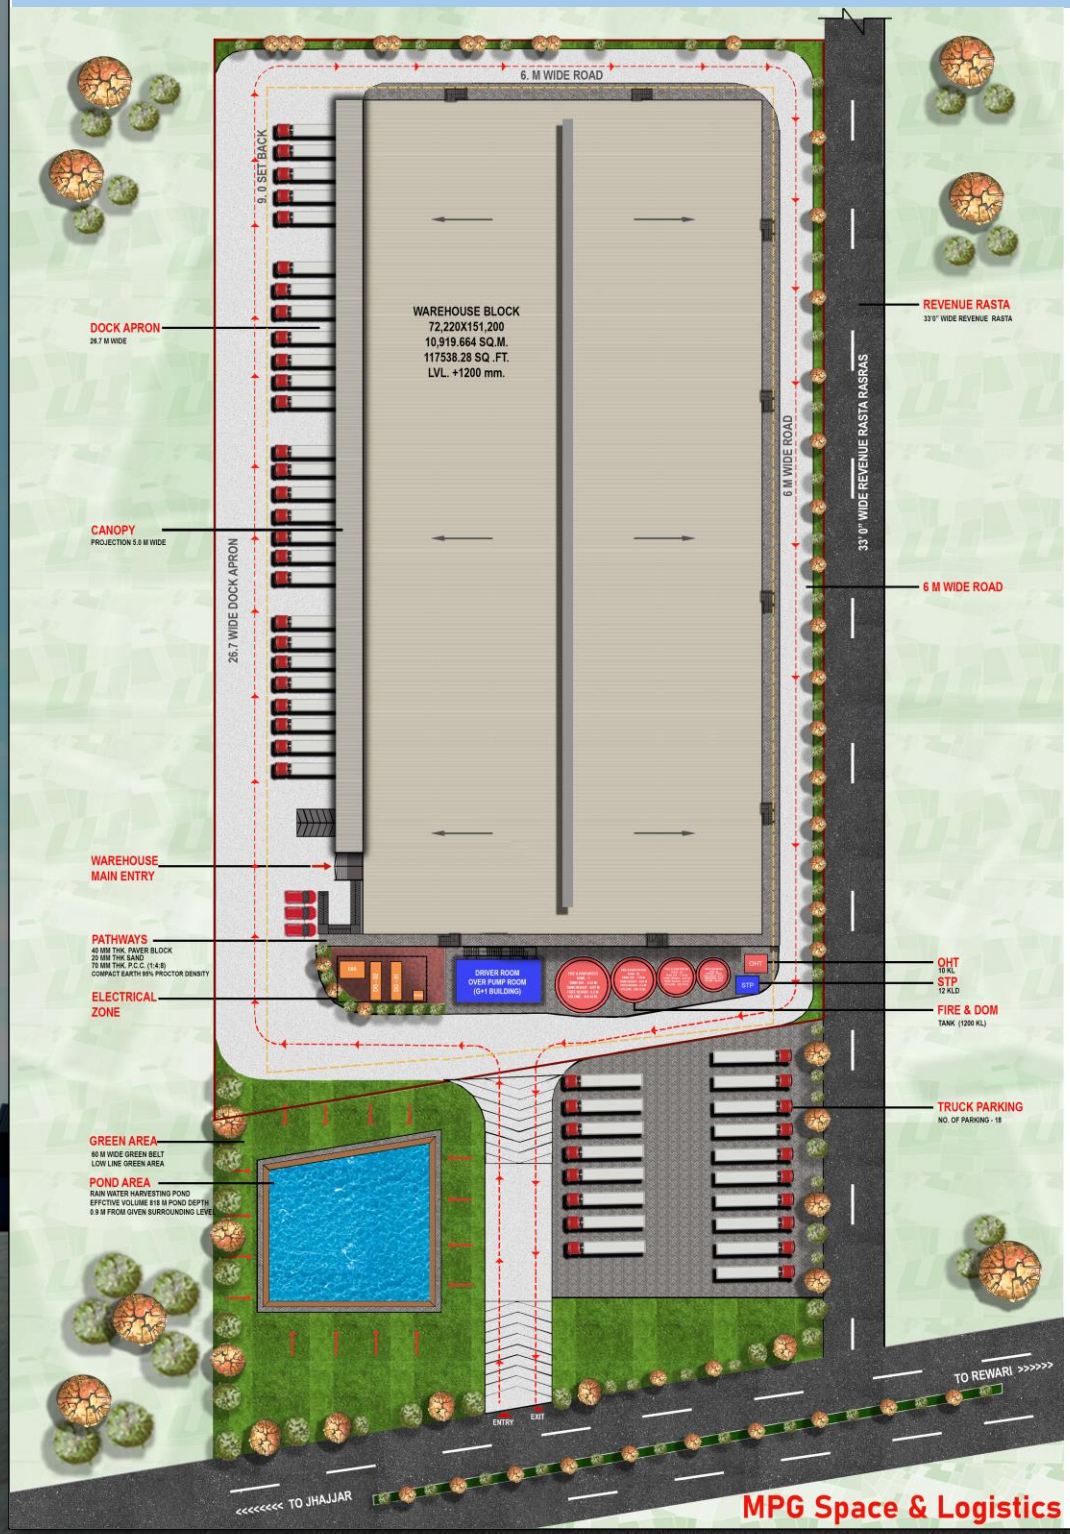
We unite precision
with performance.

We connect bold ideas
to the endless opportunities
waiting ahead.

We open the path
between visionaries and builders.

We are the force behind progress.
We are MPG Space & Logistic.
We are where potential becomes reality.

SITE PLAN



Key Site Plan Highlights

This layout has been planned to present the warehouse in a clear, organized, and operations-oriented format, making movement and support zones easy to understand

Warehouse Block

Central warehouse block positioned with defined movement corridors and clear loading-side access.

Loading Edge

Continuous dock-facing edge aligned for efficient truck interface and organized loading operations.

Truck Parking

Dedicated truck parking zone shown separately from the warehouse footprint for better movement control.

Utilities & Fire Zone

Support infrastructure includes utility areas, STP. OHT, and fire-related support provisions.

Main Entry & Access

Defined entry/exit movement supports site-level control, vehicle circulation, and access clarity.

Green & Pond Area

Landscaped green zone, and pond area support visual presentation and water-management planning.

MPG SPACE & LOGISTICS

Infrastructure & Warehouse Specifications

Technical and operational overview of the warehouse asset

Grade A / Class 1

Built-up Area	Land Parcel	Loading Interface	Height Profile
125,000 Sq. Ft.	7 Acres | 304,920 Sq. Ft.	27 Docks | 5 Dock Levellers	16 m Center | 13 m Clear

Dimension Capacity

- **Built-up Area** — 125000 Sq. Ft.
- **Parking Area** — 1.5 Acres
- **Land Area** — 304,920 Sq. Ft.
- **Center / Eave Height** — 16 meters
- **Clear Height** — 13 meters
- **Loading Docks** — 27 docks
- **Dock Height** — 4 feet
- **Dock Apron Depth** — 92 feet
- **Internal Road Width** — 40 feet
- **Mezzanine Floor** — 565 Sq m (Approx 6081 Sq. Ft.)
- **Flooring Type** — FM-2
- **Warehouse Grade** — Grade A / Class 1

Site & Operational Amenities

- **3 Modern Washrooms**
- **Barrier-Free Access**
- **On-Call Maintenance**
- **New Construction / Ready to Occupy**

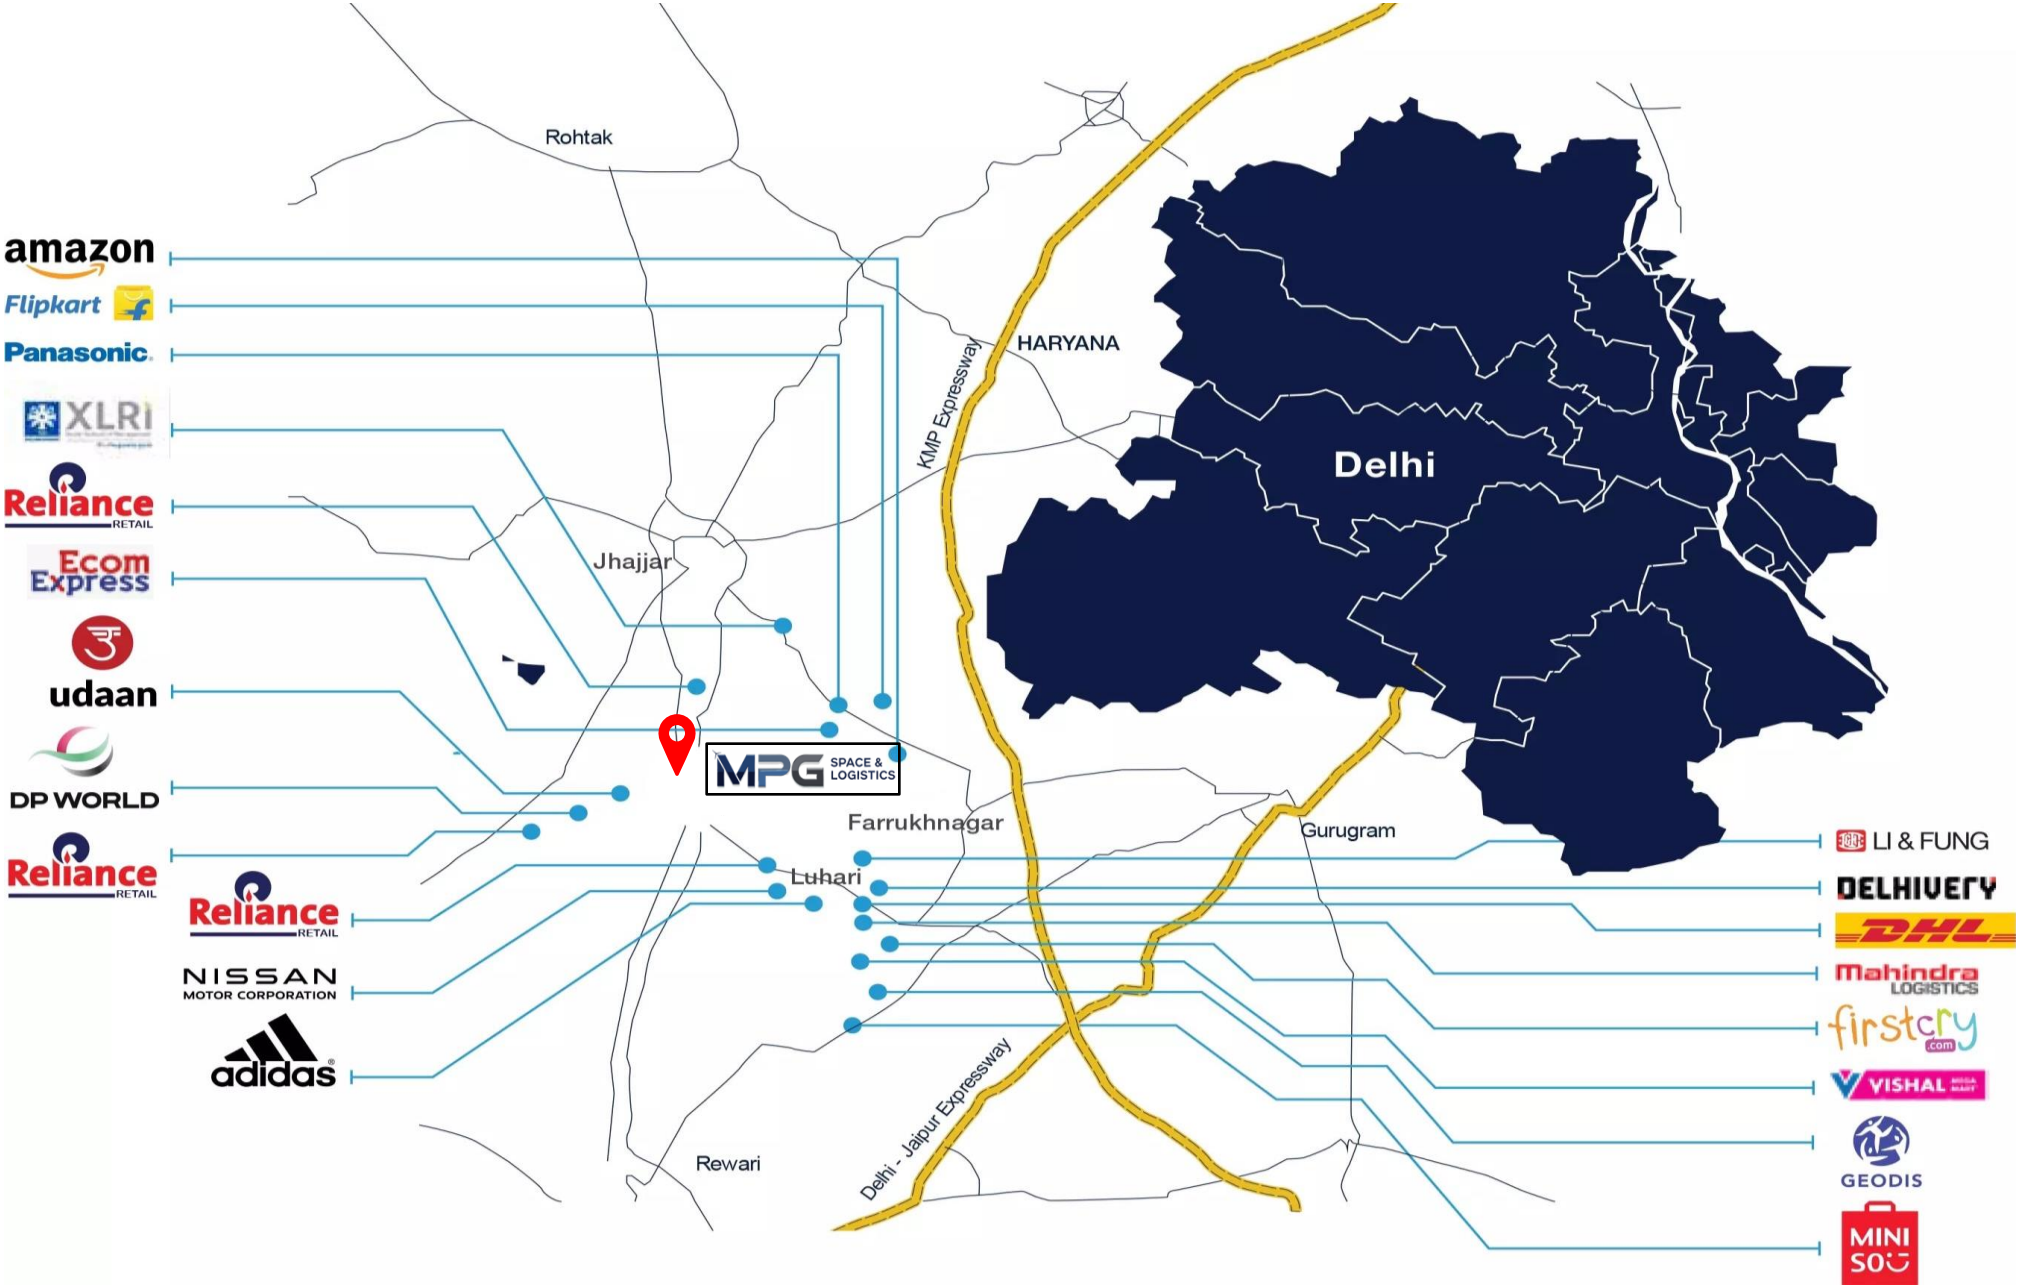
Equipped with a fresh water source, our facility provides access to fresh, non-saline water

Strategic Location Advantage

Well-developed occupier landscape | Positioned for Delhi NCR distribution and regional industrial movement



Next-Generation Warehousing in India's Core Region

Spread Over

304,920
Sq. Feet

Built-up

125,000
Sq. Feet

Rewari – Jhajjar Highway | Village: Amadalpur, Haryana
District: Jhajjar | State: Haryana

- The site is situated along the Jhajjar–Rewari stretch of National Highway 352, a well-developed four-lane highway featuring a central median.
- It lies within a prominent warehousing hub, including Luhari and Farrukhnagar, which hosts a strong presence of leading retailers, third-party logistics providers, e-commerce companies, and industrial users.
- Strategically positioned to efficiently serve the Delhi NCR region, with the added advantage of accessibility to nearby cities and neighboring states.

Modern business demands more from industrial space than ever before. Speed, flexibility, infrastructure quality, and operational efficiency have become essential. MPG Space & Logistics is designed with this reality in mind.

E-Commerce

MPG Space & Logistics supports the growing demands of e-commerce by offering strategically located warehousing infrastructure that enables faster fulfillment, efficient inventory handling, and smoother movement across regional markets.

Retail

For retail businesses, the project offers a strong platform for organized storage, replenishment planning, and responsive distribution, helping support dynamic inventory cycles and changing market demand.

Third-Party Logistics

The warehouse is well-suited for 3PL operations that require scalable capacity, efficient dock interface, disciplined circulation, and dependable infrastructure for high-volume movement.

FMCG & Manufacturing

MPG also supports FMCG and industrial occupiers seeking a reliable warehousing environment for storage, staging, dispatch, and integrated supply chain operations.

MPG SPACE & LOGISTICS

MOMENTUM

Driven by the vision to strengthen modern warehousing and logistics ecosystems, MPG Space & Logistics is building spaces that combine strategic location, practical design, and reliable infrastructure. Our purpose is to help businesses move faster, operate smarter, and grow stronger in an evolving industrial landscape.

- Infrastructure planning suited for e-commerce clients
- Loading capacity of 5 tonne/sqm
- FM2 Floor Tolerance Level
- 4.5% of the warehouse area as mezzanine for office

- One rolling shutter for every 1,100 Sq. Meter of the warehouse area
- Fire Protection System as per the applicable statutory norms
- 100% recycling of wastewater

OUR VISION

To build a respected industrial and logistics platform known for reliable assets, thoughtful planning, and professionally developed warehousing infrastructure.

OUR MISSION

To deliver high-quality, strategically located warehousing solutions that enable efficient operations, dependable business continuity, and long-term value for our clients and stakeholders.

OUR CORE VALUES

INTEGRITY
We do what is right with honesty, clarity, and responsibility. Every commitment is approached with professionalism and accountability.

OPERATIONAL EXCELLENCE
We focus on disciplined execution, efficient planning, and dependable infrastructure that performs consistently in real business environments.

CUSTOMER COMMITMENT
We build with occupier requirements in mind and aim to deliver spaces that create meaningful operational value.

RELIABILITY
We believe trust is earned through consistency, responsiveness, and a strong commitment to quality.

PROGRESS
We embrace improvement, modern planning, and practical innovation that strengthens the usefulness and relevance of our assets.
